

William Morris Gallery Teachers' Course

Teaching Textiles for Secondary Teachers

Saturday 22 March 2014

10.00 -13.30 £40.00

For secondary Art & Design/Design & Technology teachers: a chance to share practice, learn new skills and refresh old ones inspired by the gallery displays.

Tutors: textile artists Carolyn Abbott & Sba Shaikh with Pam Stone, Head of Textiles at Kelmscott School, Walthamstow.

Practical activities will include working with combed wool, and ways of applying colour and pattern; exploring methods of creating repeats on textiles from simple to more complex patterns. A school-based case study will show how a Natural Forms project using a range of textile techniques can be used effectively both for Art & Design and Design & Technology GCSE. There will also be a forum to share ideas and work together to apply skills and ideas gleaned from the day to participants' own school context.

Tea, coffee and all materials provided. Please bring a pack lunch if desired and an overall.
